## IN STOCKS AND BONDS

SPECULATION WAS DULL, BUT PRICES FIRM AND HIGHER.

Covering Movement Set in Early and Led to a Brisk Demand-Local Markets Looking Brighter.

At New York yesterday, money on call was easy at 1014; last loan, 1; close, 1@ 1% per cent.

Sterling exchange was dull, but strong. with actual business in bankers' bills at \$4.89% @4.90 for demand, and \$4.88% @4.89 for sixty days; posted rates, \$4.39@4.891/2 and \$4.90@4.90%; commercial offis, \$4.88. Silver certificates, 66% 667%c; bar silver,

66%c: Mexican dollars, 53%c. Total sales of stocks were 195,173 shares, including: American Sugar, 35,500; American Tobacco, 8,300; Burlington, 9,600; Chicago Gas, 29,100; Colorado Fuel Company, 8,000; Distilling, 29,500; Reading, 7,900; Rock Island, 6,800; St. Paul, 15,400; United States Leather. 2,700; Wheeling & Lake Erie, 6,200,

Speculation on the Stock Exchange was dull again yesterday, but the prevailing tone of the market was firm, and as a result of the trading, prices, in the main, show gains on the figures current at the close of business on Wednesday. In the railway list the improvement was most marked in the granger group. This was due to the fact that a covering movement of fair proportions had set in, the short interest in this group having been largely increased during the past few days. On a report that a directors' meeting to consider the dividend question in regard to Chicago Gas would be held tomorrow, the stock of the trust which had been forced down to 114 per cent. lower in the early trading came into good demand and advanced 1% per cent. In the latter dealings the shares broke 2 per cent on an unfounded rumor of president Lincoln's resignation. A rally of % per cent. occurred at the close, restricting the net loss to % per cent. Sugar was bought for the account of a newly organized bull pool, selling up 2% per cent., of which all but % per cent. was at the close. Purchases of distilling were induced by the action of Judge Showalter in ordering the sale of the trust property and the shares appreciated 1% per cent., closing within % per cent. of the top figure. The general market opened quiet, but in the main firm. The bears, however, made an attack on some of the specialties. did not extend to the general list. by the shorts was the main feathe early transactions, and although buying was moderate, an advance was orded ranging from 3 per cent., in which lorado Fuel, common and preferred, Metcolitan Traction, the grangers and Tobac-were most prominent. In the late dealngs some shares reacted, but the market osed strong and at or near the best prices of the day. The chief gains are Colorado uel preferred, 3 per cent.; Metropolitan traction, 2%; Tobacco, 14; Rock Island, and Burlington & Mexican Central 14. only loss above a fraction was a break per cent. in Great Northern preferred. e bond market was quiet, with sales of 1,685,000. During the morning speculation was generally firm, but in the late session es dealt in, the more prominent of which es dealt in, the more prominent of which es. Northern Pacific seconds, 1½ per cent.; orthern Pacific thirds, 1½ per cent., and orthern Pacific collateral trust sixes, New ork Central debenture fives, Southern Pacific of California consol fives and Brooklyn levated firsts. 1 per cent. Advances: Mich. elevated firsts, 1 per cent. Advances: Michigan Central consol fours, 2; Union Pacific collateral trust four-and-a-half trust receipts and Illinois Central three-and-a-halfs, Hocking sixes, 12; Long Island fours,

rease of 19.6 per cent. LOCAL GRAIN AND PRODUCE.

Trade Slow, Prices in Some Lines Un-

settled. Trade in most departments yesterday was slow as usual after a holiday, and in some lines lower prices are indicated. Poultry is weak and the shippers would pay but 12 cents for young chickens. Eggs are coming in freely and rule weak. Butter is scarce and will bring best quotations. The hide market shows more strength and the demand for calf hides leads to an adweak and the leather market is by no neans in as strong a position as a month The wholesale grocers had the most day for weeks. Prices on all staple les firm and an advance in sugars il. Fortunately stocks were light. Lower ices are now looked for on fruit and estables. Still it is hardly probable that really choice stock the decline will be ocal grain market was a little tame

is likely to become more unsettled with the advance in freight rates on Monday next and the grain men are keeping close to the shore. Track bids yesterday ruled

## REVIEW OF THE TRADE

REPORTS FROM OVER THE COUNTRY SHOW BETTER CONDITIONS.

Outlook for Fall Business Considered Bright-Dun & Co.'s and Bradstreet's Weekly Reports.

NEW YORK, July 5 .- R. G. Dun & Co.'s weekly review of trade, which issues tomorrow, will say: The midsummer reports from all commercial centers are of especial interest, covering the questions on which the future of business depends. They indicate distinctly better crop prospects than other official or commercial accounts, a marked increase in retail distribution of products, an active demand for goods and with some advance in the wages of more than half a million hands. At the same time they show that the rapid advance in prices has somewhat checked the buying of a few classes of products. In some parts of the country the outlook for fall trade is considered bright. Comparison of prices for various iron products shows an advance ranging from 72.2 per cent. since first order for shipments of steel billets to Europe, given some time ago, when prices were low, is being announced, the price here has advanced from \$17 in April stronger both here and abroad, the London sales opening July 2 at higher prices mestic wool quoted by Coates Brothers has risen nearly half a cent since June 15. Sales have been enormous, though largely speculative, but exceeding those of May and June in any previous year, being 26,-897,613 pounds domestic and 27,487,100 foreign, against 24,232,400 pounds domestic and 19,675,130 foreign for 1892. There is a growing reorder demand for heavy wools and many new kinds of light heavy wools and many new kinds of light weights have been opened with notable irregularities in prices, some lower and others higher than last year. But the manufacturers are better sustained thus far than expected and the feeling is very hopeful, especially as labor troubles have substantially ended. Prices of cotton goods continue to advance and the mills are generally well employed. Speculation has advanced cotton 3-16c, though the crop news is favorable, but has depressed wheat 2 cents in spite of estimates that the yield has been materially reduced since June 1. Every year the crop reports are having less influence and the time is ripe for the radical change in government estimates which the de partment proposes. The year closes with more than 2,600,000 bales American cotton available here and abroad and with at least 65,000,000 bushels surplus wheat, although some make the quantity 30,000,000 bushels larger. The crop of oats is certain to be large and the prospect for corn has greatly improved within the last few weeks.

There were 6,657 commercial failures in the first half of 1895, against 7,039 in the first half of 1894 and 6,401 in the first half of 1893. These commercial failures inliabilities of \$88,839,944 this year, against \$101,739,306 last year, and \$168,864,444 in 1893. Manufacturing failures for the half year were 1,254, against 1,501 last year, and liabilities, \$40,301,949, against \$41,376,102 last year and about \$89,000,000 in the first half of 1892. Trading failures for the half year were 5,335, against 5,402 last year, and liabilities, \$45,669,830, against \$52,345,978 last turing failures were, in number, .36 of one ing \$113 for every such concern, against one per cent. of all firms in business, against .64 last year, with liabilities averaging only \$54 or every such concern in business, against \$62 last year. Banking failures, not included in above statements were 63, with liabilities of \$16,653,276, against 63 last year, with liabilities of \$13,184,461. The details show a decrease in every class of failures in

\$40 for every firm in business, and \$3.04, against \$403 for every \$1,000 solvent pay-Bradstreet's Review of Trade. NEW YORK, July 5 .- Bradstreet's to morrow will say: Notwithstanding the week is broken by a holiday, favorable trade conditions heretofore reported continue to exercise a pronounced influence. General advances in prices of staples and in wages of industrial employes are prominent features. The extent of the voluntary advances in wages reported within a month or two has tical bureaus which have endeavored to keep track of them, latest advices being ers have received an advance averaging about 10 per cent. At the East the most active trade is reported from Pittsburg, where ines. In the West the most favorable condition of business is reported from Louis and the incentive appears to be uniform reports of favorable crop prospects throughout the region tributary to that city. No material improvement is reported from the South. Rains continue to be damaging to agricultural interests and to chec in Texas, while at south Atlanti and Gulf States cities the quiet movemen of staple goods and fair or unsatisfactory collections of the past month or two con-tinue. But advices from nearly all cities reported appear to agree that wholesale lealers in nearly all lines are greatly enouraged as to the outlook for business during the autumn, believing that the demand will be greatly stimulated by the very general and, it is believed, permanent improvement in prices. Exports of wheat (flour included), both coasts of the United States and from Montreal, amount to 2,007, 000 bushels this week, against 1,946,000 bush els last week; 1,850,000 bushels in the week a year ago; 3,577,000 bushels in the first week of the new cereal year in 1893; 2,060,-000 bushels in 1892, and 2,225,000 bushels in

## She Misunderstood.

Worcester Gazette. A little girl who attends one of our primary schools said to her mother the other day: "Mr. Owen was in my school to-day." "He was?" rejoined the mother; "what did he have to say?" "Oh, he told us how many turnips in a bushel," said the child, with confidence, "Turnips in a bushel," exclaimed the mother in surprise, "what in the world does he have to do with turnips?" "He didn't say anything about turnips in a bushel," said a little about turnips in a bushel," said a little playmate, who was present. "He told us about how many beats in a measure.

ALL MARKETS LOWER

EARLY STRENGTH AT CHICAGO SOON

TURNED TO WEAKNESS.

CHICAGO, July 5 .- After a hard strug-

gle for higher prices wheat turned weak

Better Crop Conditions than Were Anticipated and Lack of Foreign Demand the Causes.

to-day on favorable crop reports and lack of export demand, closing 5sc lower for September. Corn closed %c lower, oats %c lower and provisions at general declines. Steadiness on the foreign exchanges and rain intermixed with high temperature in the Northwest gave the wheat market a strong send off and kept it strong for an hour. Light receipts likewise contributed their quota to the aid of the early advance and later some telegrams were received from Minneapolis which seemed to justify the apprehensions which the weather report had raised regarding the spring wheat. The firmness of the market continued until the receipt of the Missouri State crop report, which was of a surprising character and caused the loss in a few minutes of all that the market had gained up to the time of its receipt. The June report of the Missouri State authorities placed the condition of wheat at 59, and now it puts it at 73, or 14 points higher than in June, which is so manifestly wrong that the trade here soon got over the scare and began to buy back some of the wheat thrown over when the report referred to was first sprung. The government Agricultural Bureau made the condition of winter wheat on June 1 70, and the Prairie Farmer and Orange Judd Farmer statisticians made substantially the same returns concerning it, and both of the latter have since brought the condition up from 3 to 4 points since June 1: The State authorities were evidently in error in giving the June condition as low as 59, and in bringing it up to 73 now they are quickly coming into line 73 now they are quickly coming into line with others and correcting their previous estimate, which was entirely too low. The receipts of wheat here were given as twenty-four cars, but twelve of those were transfers from irregular to regular city elevators. Of the twelve cars of fresh receipts six were new wheat, one of which graded No. 2 and the other five No. 3.
Minneapolis and Duluth reported 137 carloads received, against 316 a year ago. St. Louis receipts were comparatively liberal at 43,000 bushels, but Toledo received only

The fluctuations in corn were frequent, but not very violent. Between 46%c and 46%c for September the price moved up and down several times. The generally stronger tone which prevailed early was due to the moderate exports and good cash demand. Spot erate exports and good cash demand. Spot corn to go to store was wanted at 464c. Receipts to-day were 160 cars and to-morrow's estimate is for 246, which will include the accumulation of the holiday. The exports from the Atlantic seaboard amounted to 180,000 bushels. The Missouri State report remarked that the promise for corn is phenomenal and private reports from Kansas are to a similar effect. September opened at from 4614c to 4614c sold as high opened at from 46½c to 46½c, sold as high as 46½@46½c and down to 45½@45½c near the close, the latest trading being at the

lowest quotation. In oats business was fairly heavy and the market quite active throughout. With a generally good demand from shorts the tone was very firm and higher prices were scored early in the session. Later, howscored early in the session. Later, however, when wheat and corn broke, oats took a drop and ended 1/6 1/4 c lower on near futures and steady on the deferred deliveries. September ranged from 24 1/4 c to 25 c, closing at the low point. The provision market was strong at the opening and weak at the close. Pork in the end showed a reduction in price since Wednesday afternoon of 15 c in September and 25 c in July. Lard is .02 1/2 c lower and ribs .07 1/2 c lower. The opening was strong on account of the light run of hogs and weak in the end by reason of heavy selling by John Cudahy. The receipts of hogs for Wednesday and Thursday together were only 22,000 and today only 18,000.

Estimates for to-morrow: Wheat, 43 cars;

Estimates for to-morrow: Wheat, 43 cars corn. 240 cars; oats, 356; hogs, 11,000 head Leading futures ranged as follows:
